PROFESSIONAL SUMMARY

DevOps and cloud engineer experienced in deploying and maintaining applications across Microsoft Azure and Google Cloud. Hands-on with Azure DevOps, CI/CD, Docker, Kubernetes, AKS, GKE, cloud build workflows and Python backend services. Combines application development knowledge with deployment automation to support dependable software releases and cloud operations.

TECHNICAL SKILLS

Cloud platforms: Microsoft Azure, Google Cloud Platform (GCP), Azure Kubernetes Service (AKS), Google Kubernetes Engine (GKE), Azure Container Registry, Cloud Build

DevOps & delivery: Azure DevOps, CI/CD pipelines, release automation, containerised deployments, Terraform / infrastructure-as-code practices

Containers & platforms: Docker, Kubernetes, Apache, Linux-based application operations

Development: Python, backend APIs, deployment scripting and automation

PROFESSIONAL EXPERIENCE

DevOps Engineer | Convo | Nov 2023 – Present

- Deploy and maintain cloud-hosted applications, with primary responsibility for Microsoft Azure environments and delivery workflows.
- Create and maintain CI/CD pipelines to streamline builds, deployments and application releases.
- Work with Docker, Kubernetes and managed cloud services to package, deploy and operate application workloads.
- Collaborate on backend delivery for TEPS and MeriUstani.ai, connecting Python services with cloud deployment workflows.
- Support cloud configuration, release troubleshooting and ongoing deployment operations across project environments.

SELECTED PROJECT WORK

AI HR Recruitment System | Azure cloud deployment

- Deployed an end-to-end recruitment application on Microsoft Azure.
- Built and maintained CI/CD pipelines using Azure DevOps and managed cloud deployment automation.

TEPS | Test-conducting SaaS platform

- Developed backend APIs and application features while supporting release engineering.
- Built and maintained CI/CD pipelines and managed Docker-based application deployments.

MeriUstani | AI-powered learning platform

- Developed backend services for the learning platform.
- Automated delivery workflows and supported cloud deployment operations.

Spliq | Personal finance application (independent project)

- Built a personal expense-management app with expense tracking, spending insights and shared bill splitting.
- Owned the application development and product delivery as an independent project.

EDUCATION

Bachelor of Science in Computer Science | University of Engineering & Technology, Mardan | 2019–2023

CERTIFICATIONS AND PROFESSIONAL LEARNING

- Microsoft Certified: Azure Administrator Associate (AZ-104).
- AZ-400 – Designing and Implementing Microsoft DevOps Solutions.
